EXAMPLE ELECTRIC - TECHNICAL DOCUMENT LIBRARY

Reference: GB/T 7251.6-2015
File: gbt-7251-6-2015.pdf

Category: electrical engineering / standards reference

NOTICE
This file is a document reference sheet produced for the site document library. It is NOT the official published text of the standard or specification, and it does not reproduce the standard’s clauses. For design, certification and legal purposes, obtain and rely on the official text issued by the standards body or its authorised distributors.

The site lists the corresponding item so that visitors can identify which standard applies to busbar trunking systems and low-voltage switchgear assemblies, and can request technical support from our engineers.
